SSSSO KERALA – 2018-19 STATER EPORT

During the year 2019, "REACHOUT & BRING IN" was the mission that was placed by SSSSOKERALA at the lotus feet. With HIS immense grace we tried our best to reach out and bring in more devotees to SAI fold. We could achieve the same with the earnest support and enthusiasm from our brothers and sisters.

With gratitude to our divine Master we place below the important activities carried out the State level and District Level of SSSSO Kerala 2019.

1. SSS Hand in Hand programme: The objective is to strengthen the Samithis with the help of senior and experienced members. One of the senior office bearers from the district is nominated as the in-charge of a Samithi. The member will visit the Samithi once in a month, work with them, hand hold them and help them to improve the activities one by one. This has helped many Samithis to upgrade to higher levels in terms of grading and by 2020 we have decided not to have any Samithis under C or D category.
2. Seva activities during and after flood–We are continuing the Seva to the needy for the last one year without a break.
3. Monthly meeting of all office bearers at the district level for evaluation and planning.
4. Follow up of Pragathi Patham-Study of Vahini series up to individual – this is one of the missions we started with the inspiration we received from Prasanthi Nilayam during the 94th Birthday celebrations. A group was formed at the State, District and Samithi level to ensure that regular and periodic studies on Vahini series are happening at all levels. There is no compulsion or pressure to take this activity forward but the response is truly inspiring.
5. Annual meeting in December every year for planning and evaluation and publication of programme calendar for the next year.
6. Grading of Samithis–With a clear objective to bring all Samithis to higher levels in spiritual, service and education we could make a grading of Samithis as Excellent, A, B, C and D categories. Started last year, we are continuing the same with a regular follow up and monitoring of all the activities. The Grading was based on various

activities like Bhajan, Nagarasankeerthan, Balvikas Study circle, Narayana Seva, EHV Classes, Mahila Day Program, Gama Seva, Yuva Vikas Classes, RVTC, and Prashanthi Seva etc.

7. Delegation of work to three senior coordinators to help District President-

DC-1-Spiritual
DC-2-Education.
DC-3-Seva

The entire activities will be mapped under each DC's they will ensure that no activity and reporting are missed out. This has improved great the quality and quantity of work. Continuous evaluation is happening on weekly, monthly basis with a good interaction from SP.

8. SSSAVP Sri Sathya Sai Anna Vasthra project -To help thousands of underserved with food materials and new clothes. Sri Sathya Sai Anna Vasthra project is a unique way of providing food and clothes to the underserved in localities covering cities, towns and villages. Initially a survey will conduct by volunteers of SSSSOKERALA to identify people or families having very low income and struggling to earn their livelihood. A card, "Premavahini Card" will be issued to those identified households and it is the responsibility of the Sri Sathya Sai Samithi in that area to ensure that sufficient food and clothing are provided to each of the household on time. The project is being planned throughout the year and it will directly help the needy by ensuring they receive proper meal and clothing. Local Samithi members / Sevadal will visit the identified households twice in month, with a kit of Rice, Dhal, Cooking oil, turmeric, chillies, and other groceries along with adequate clothing will be handed over to them at their door step. Households can also contact the Sevadal in charge in case of any need to exigency.
9. EHV -Every week covering minimum 5000 students, teachers and parents.
10. At the state level, meeting of state level office bearers once in two months for evaluation and planning.
11. Medical Service - With His Grace currently the state is having three Primary Medical Centers and the plan is have the same across all Districts before the end of 2020.

District Activities
