**Plantation of Divine Dhyana Brukshya in different nook and corners of Odisha**

Every Act of the Avatar is predetermined with the goal fixed and unshakable. Our loving Lord Bhagawan Sri Sathya Sai Baba took a small step in the year 1959 on 29th of June, planting a Banyan sapling on the hill top placing underneath a Yantra created by Him from thin air. This grew into a massive meditation tree giving solace to numerous Sadhakas in the past years and continue to help devotees connecting Swami even today. But this was not just the end of His Leela as the things unfolding in a miraculous way whereby by around 5000 saplings made out of the sacred tree which were sent to the nook and corner of the world for plantation in the respective samitis. These saplings in turn will grow into vast meditation trees in the future and will stand as a testimony to the Divine Legacy of the Avatar.

The compassionate Mother Sai, out of Her infinite love, blessed the state of Odisha with 345 nos. of saplings from “Dhyana Brukshya”, which were received by the state office bearers and trust members. This event coincides with the month long seva rendered by the sevadals of Odisha in Prashanti Nilayam , the spiritual capital of the universe during the month of December 2020.

*State of Odisha receiving Dhyana Brukshya from Prashanti Nilayam*

For the devotees of Odisha, saplings of Dhyana Brukshya were not merely considered as small plants but were the living form of our beloved Bhagwan Sri Sathya Sai Baba. Upon receipt, the saplings were kept in Mandir premises with daily Puja Archana till Sthapana.

*The divine sapling being received in Odisha and placed in Samithi with Daily Puja Archana being offered.*

Much before the divine saplings landed in Odisha, the exact location where the divine forms shall be planted across the state had been identified. Before 95<sup>th</sup> divine birthday of our Swami, in all the designated places across the state Bhumi Pujas were done followed by digging of pits in a spiritual environment with an indication, that the state is ready to welcome the divine form.

*Site identification, puja and Preparation for Dhyana Brukshya plantation*

Upon receipt of all the divine forms in the state, it was decided that in all the places these Dhyana Brukshya saplings shall be planted on 14<sup>th</sup> January 2021, which was followed for most of the cases. On the auspicious day, the pits were sanctified with Bibhuti, Turmeric, Kumkum and Holy water taken from respective local deities and rivers. Different Yantras like, Sri Yantra, Rudra Yantra, Vaibhav Lakshmi Yantras were placed in the pit on which the Likhita Nama Japam books were placed and above that, the divine saplings were planted. The environments in all places were engulfed with spiritual vibration due to continuous chanting of Sai Gayatri, Sri Rudram, Lingasthakam etc.

Procession of Dhyana Brukshya by the brothers and sisters

Starting from respected State Presidents to the Bhajan Mandali conveners, all office bearers as well as members of the organization enthralled with the divine nectar oozing out in their heart during this sacred Programme.

Dhyana Brukshya plantation at various locations of Odisha with rituals

Once the sapling grows into a sizeable tree, a circular 'mandapam' will be made around the meditation tree so that the devotees can sit comfortably and do Dhyana.

Offering our prayers at the lotus feet of our beloved Swami to make this mission successful and to bless the State of Odisha with his unconditional love and shower the blessings.
